### Agency overview

The NSW Office of Environment and Heritage aims to enrich life in NSW by helping the community to conserve and enjoy our environment and heritage. For more information go to [www.environment.nsw.gov.au](http://www.environment.nsw.gov.au).

### Primary purpose of the role

Supervise and manage the operation and maintenance of the water and wastewater infrastructure in the Perisher Range Resorts and Sawpit Creek for the Perisher Team.

### Key accountabilities

- Manage and supervise water and wastewater staff, resources, and infrastructure to provide a clean drinking water supply to the resort areas and ensure effective wastewater treatment.
- Implement water quality, sewerage effluent and water management controls to ensure compliance with licensing and statutory requirements, quality control standards, and safety and environmental legislation.
- Provide technical advice and liaise with specialists in engineering, construction and other disciplines to ensure compliant, safe and quality water and wastewater management.
- Program, manage and supervise repairs and maintenance work to installations and equipment, and manage and maintain assets to ensure optimum working order.
- Monitor and report on budget expenditure and considerations to ensure efficiency of operations and completion of projects and work within financial constraints.
- Lead, direct and guide staff in order to enhance their performance and development, maintain a safe work environment, and assist in achieving the team's goals and objectives.

### Key challenges

- Ensuring effective continual operation of water and waste water services in a remote location that experiences seasonal fluctuations in water demand and sewerage system loads, and is subject to inclement winter weather conditions.
- Identifying and implementing solutions to water and wastewater issues and referring those outside the scope of the position to the Senior Engineer, to ensure the continual operation of water and wastewater infrastructure.
- Periodically the role will need to respond to emergency water or sewerage situations which can occur after hours and/or during extreme weather events.
