

# Maitland Levee – Horseshoe Bend Repair Works

---

## The Department of Planning and Environment are continuing repair works as part of the Hunter Valley Flood Mitigation Scheme

---

As part of the Hunter Valley Flood Mitigation Scheme, the Department is working on Stage 2 of the levee restoration at Horseshoe Bend. Stage 1 emergency repair works were completed in January 2023.

The Hunter Valley Flood Mitigation Scheme is designed to mitigate flood risk as an integrated system operating across multiple local government areas, covering urban, peri-urban and rural areas.

Work is progressing on the levee. So far, we have established the site and have been importing and placing additional rock along the levee

### Our work schedule

We are taking a break over the holiday period and will finish work on Friday 22 December, returning on Monday 8 January 2024. We will continue earth works and rock placement on the levee in the new year.

Our work hours will be between **7 am** and **6 pm** from **Monday to Friday** and **8 am** and **1 pm** on **Saturdays**.

### How will the work affect you?

Our work may be noisy at times but we will do everything we can to minimise its impact, including reducing the speed limit for construction vehicles on Carrington St to **20km/h** and Matthew Lane to **5 km/h**.

### Traffic changes

There may be temporary traffic changes during our work hours to ensure the work zone is safe.

Please keep to speed limits and follow signs and traffic controllers' directions.

Trucks will enter our work area via Carrington Street and Mathews Lane.

### Contact

Thank you for your patience during our work. If you have any questions, please email [info.hvfms@dpi.nsw.gov.au](mailto:info.hvfms@dpi.nsw.gov.au) or call 1300 081 047.
