- (b) The parties acknowledge and agree that the Contractor Portal forms part of the SUI and, as such, will continue to be available to the Contractor following the SUIISA Term in accordance with the terms of the SFSS Contract.

2. Data Transfer

- (a) At 5.00pm on each calendar day (and/or at any other time and/or interval as may be determined by the Principal), as applicable, the Principal will transfer data via SFTP (in such format as the Principal may determine) from the Principal to the Contractor (each transfer being a **Data Transfer**).
- (b) The data provided as part of a Data Transfer will relate to:
 - (i) new Work Orders;
 - (ii) new Work Order lines (the reference to lines being to any new SoR Item detail within the relevant Work Order);
 - (iii) updated Work Orders; and
 - (iv) updated Work Order lines (the reference to lines being to any updated SoR Item detail within the relevant Work Order),

which, in each case, have arisen since the immediately previous Data Transfer occurred. For the avoidance of doubt and notwithstanding the Data Transfer, Work Orders will still be issued by the Principal to the Contractor on the Contractor Portal throughout the course of the day as they are raised by the Principal. The Data Transfer is merely intended to provide a collation of such Work Orders in one location for the Contractor to have access to.

3. Manual Contractor Update

- (a) For the duration of the SUIISA Term, the Contractor will be required to manually update the Contractor Portal in relation to all Work Orders (including all Work Order fields) and Maintenance Works in accordance with this section 3 of Schedule A (each such update being a **Manual Contractor Update**).
- (b) As part of any Manual Contractor Update, the Contractor must ensure that:

- (i) status (or other) updates to all existing Work Orders are recorded in the Contractor Portal (including in relation to any Property Access Issue, Appointment Impacted Issue or Work Order EOT Request); and
- (ii) all Maintenance Works Data in relation to all Work Orders is uploaded into the Contractor Portal,

which, in each case, has arisen since the immediately previous Manual Contractor Update.

- (c) The Contractor Portal must be updated by way of a Manual Contractor Update in respect of all Work Orders:

- (i) subject to section 3(d) below (in relation to Non-Urgent Work Orders only), on the same day on which the Maintenance Works, to which the relevant Manual Contractor Update relates, were performed;
- (ii) notwithstanding section 3(d) below (in relation to Non-Urgent Work Orders only), prior to the expiration of any timeframes prescribed in the relevant Work Order (and, in any event, the Contractor must always ensure that the Contractor Portal is fully updated with all detail and evidence required under the SFSS Contract prior to the Date for Works Completion of the relevant Work Order); and

- (iii) in relation to any:

- (1) Non-Urgent Work Order, the Contractor must make the required Manual Contractor Updates on a daily basis but may make them:

- (A) progressively throughout the day for each Work Order (as may be required depending on the relevant Work Order);
- (B) in bulk for all Work Orders between the hours of 2pm and 5pm; and/or
- (C) using a combination of the methods described in sections 3(c)(iii)(1)(A) and 3(c)(iii)(1)(B) above; and

- (2) Urgent Work Order, the Contractor must make the required Manual Contractor Updates in real time immediately upon the applicable update relevant to that Manual Contractor Update occurring.

- (d) The parties agree that for Non-Urgent Work Orders only, where an update to the Maintenance Works occurs after 2pm (and such update falls within the scope of a Manual Contractor Update), the Contractor will have 24 hours from the relevant update occurring to make the required Manual Contractor Update in the Contractor Portal provided that:
 - (i) the Contractor must exercise all reasonable efforts to make the relevant Manual Contractor Update on the same day as which the relevant update occurred in accordance with section 3(c)(i); and
 - (ii) this section 3(d) is without prejudice to the Contractor's obligation to ensure that all Manual Contractor Updates are made prior to the expiration of any timeframes prescribed in the relevant Non-Urgent Work Order in accordance with section 3(c)(ii) above.

By way of example only, in the event that an update to a Non-Urgent Work Order occurs at 3pm on 1 October 2024 (and such update falls within the scope of a Manual Contractor Update), and the Date for Works Completion of that Non-Urgent Work Order is 1 October 2024, then the Contractor must ensure that all Manual Contractor Updates in respect of that Non-Urgent Work Order are completed on or before 1 October 2024, notwithstanding this section 3(d) of this Schedule A.

4. Supplementary Works Request Report

- (a) The Contractor must, on a daily basis and whenever requested by the Principal and in accordance with the instructions of the Principal, provide the Principal with a report setting out any necessary changes to SoR Items or SoR Codes (including any addition, removal or addition and removal of an SoR Item or SoR Code) that are:
 - (i) caused by, or related to, the need for or performance of Type 1 Supplementary Works; or
 - (ii) required for the performance of Type 2 Supplementary Works that are related to any Non-Priority Type 2 Supplementary Works Request,

(the **Supplementary Works Request Report**). The Supplementary Works Request Report must be provided by the Contractor via email to the Principal's nominated email address(es) in such format as may be directed by the Principal from time to time. - (b) The Principal may from time to time require that the Contractor provide additional reports to the Supplementary Works Request Report. The content, format and associated cost of any such additional reports will (where applicable) be agreed by the parties at the relevant time (acting reasonably).

 - (i) the Supplementary Works Request Report; and
 - (ii) any other report to be provided by the Contractor pursuant to section 4(b) of this Schedule A,

in each case, for the purpose of extracting and uploading relevant Maintenance Works Data from those files into the SUI and such other purpose as the Principal may reasonably determine.

- (c) The Contractor acknowledges that an Urgent Work Order, and information, data, documents or records relating to an Urgent Work Order, may also be transferred to the Contractor as part of a Data Transfer. The Contractor must ensure that no duplicate Urgent Work Orders (or duplicate information, data, documents or records relating to Urgent Work Orders) are recorded in the Contractor Portal (and, in any event, ensure that any such duplicates are addressed appropriately).

In such circumstances, the Principal will provide confirmation to the Contractor that the relevant Work Orders have been updated within five (5) days of receipt of the Supplementary Works Request Report by the Principal from the Contractor.

- (g) Notwithstanding section 9(f) of this Schedule A, the Contractor will be entitled to an automatic extension of time in relation to any Work Order the subject of a Work Order EOT Request which is rejected by the Principal that is equal to the time taken for the Principal to consider the relevant Work Order EOT Request and communicate its rejection. Such automatic (equal) extension of time will be calculated by reference to the time at which the Contractor raises the Work Order EOT Request, and the time at which the Principal's rejection of that Work Order EOT Request is provided in the Contractor Portal or communicated to the Contractor as part of a Data Transfer (as the case may be).
- (h) In the event that the Principal considers (acting reasonably) that the Contractor is abusing or taking advantage of the process set out in this section 9 of Schedule A, the Principal may (in its absolute discretion) direct that the Contractor telephone the Principal in relation to all Property Access Issues, Appointment Impacted Issues and Work Order EOT Requests. As part of any such discussion and otherwise upon the Principal's request, the Contractor will provide the Principal with the data and other information in the Contractor Systems upon which the Contractor has based its belief.
