SUBMISSION- FNC water strategy

Good afternoon,

My name is [REDACTED] and I have been fortunate enough to live in the beautiful Dunoon for almost 3 years. I am writing to ask that in continuing the great work on the Far North Coast Water Strategy, the emphasis on Rous' Future Water 2060 project is diminished, particularly in regards to the contentious Dunoon dam proposal. The Dunoon dam should no longer be an option in the strategy, given there are plenty of other ways that we can work together to save enough water to sustain us. The possibility that the Dunoon dam could go ahead, consequently destroying important habitat for animals and sacred burial sites for the local Aboriginal community is terrifying, particularly when there are many other solutions.

Thank you for your time and consideration,

[REDACTED]
