

External Service-Related Complaints Policy

Purpose of this policy

The Department of Planning and Environment (the department) and its related agencies are committed to handling complaints fairly, efficiently, and effectively. We recognise that complaints and effective handling of complaints can improve the way we do business and build stronger relationships with our customers.

We know how important it is that complaints are treated seriously and have a timely resolution. When complaints are managed efficiently and effectively, this allows us to continually improve the quality of the service we provide and ensures we meet our regulatory obligations as a NSW Government department.

This policy outlines the key principles that apply when a customer makes a complaint about the activities of the department.
