**Sent:** [REDACTED]  
**To:** [REDACTED]  
**Subject:** Your submission for Far North Coast Regional Water Strategy

### 1. Information on confidentiality and privacy

I give my permission for my submission to be publicly available on the NSW Department of Planning, Industry and Environment website.: Yes

I would like my personal details to be kept confidential.: No

### 2. Your details

Email address: [REDACTED]

Name: Paul Recher

Address: [REDACTED]

Contact phone number: [REDACTED]

Do you identify as an Aboriginal person?: No

Are you an individual or representing an organisation?: Individual

### 3. Organisation or business details

Who do you represent?:

If you selected Government, please clarify.:

If you selected Peak representative organisation, please clarify.:

### 4. Draft Regional Water Strategy objectives and vision

Do you support this vision for the Far North Coast Regional Water Strategy? : No

If no, please outline your vision for the long term management of water resources in this region?: Zero to maximum 0.5% annual population growth. Roof top water collection for all new developments <https://m.youtube.com/watch?v=haBY2MEI2Rk> Top shelf membrane technology that removes everything from virus to arsenic. LET THEM DRINK PEE! Are we going to let emotional irrationality trump the science? Recycled sewerage makes for 100% safe potable aqua.

### 5. Information and modelling used to develop the Far North Coast Regional Water Strategy

Do you have any comments about the information used to develop this strategy?: Developers and new residents should bear 100% of the costs for future water supply. Note due to Rous Water financial mismanagement customers suffered through 8(?) years of 15% annual increases starting around 2009

Please provide details if there is additional information you think we should consider?:

### 6. Stochastic modelling method

Do you have any comments about the modelling method used to develop this strategy?:

Is there any additional information that you believe could help us assess the benefits and disadvantages of draft options?:

### 7. Opportunities and challenges for water management in the Far North Coast region

Do you have any comments on the opportunities, risks and challenges identified?: Last two times planet >410ppm co2 sea levels more than 15m higher. All low lying coastal development must be prohibited. Planned retreat measures should be enacted now. Of course no one will because no one wants to deal with the elephant in the room. Climate change is an existential emergency requiring dramatic action NOW

Are there any additional opportunities, risks and challenges that we should consider and what options could address these?:

### 8. Draft Far North Coast Regional Water Strategy options

Which five (5) options do you think are most important?: 21-20-24-29-7/6 7/6 do not understand difference betwixt direct & indirect potabl

Please comment on why you think these options are most important? : Environment before greed and stupidity

Which five (5) options do you think are least important? (If any): 1. 2. 4. 10. 11

Please comment on why you think these options are least important? :

Do you have any comments on the draft options?: 6

### 9. Option combinations

Do you have any thoughts on how the options could be combined with other options?:

Are there additional options that we should consider?: Stop believing in the myth of macroeconomic theory. It is a disproven theory and an emperor with no clothes everyone is blind to

### 10. Other comments

Do you have any other comments about the Far North Coast Regional Water Strategy?:

### 11. Referral

How did you hear about the public exhibition of this strategy?: Social media
